

Safety Knife Klever Xchange

Safety Knife with interchangeable head design

ILLBY PLAST
plast - muovi - plastics

Show online

Designed to cut packing straps, packages and plastic films safely.

- Interchangeable head design. Keep the handle, replace the blade!
- Ergonomic 'Soft Touch' handle reduces hand fatigue and stress
- Recessed blade prevents contact with fingers, reducing costly injuries
- Recessed blade prevents contact with contents, reducing expensive product damage

Equipped with a metal tip to tear adhesives.

Easy to change blades, no need to tools. Only push the button and the "head" is released and a new "head" can be installed. The user don't have to touch sharp blades when to replace a new head into the knife.

Replaceable blades; single sided, double sided and all metal double sided head. More details below.

The knife is delivered with ref 30 Single sided head.
