Designed for deburring PVB and EVA inserted in windshields vehicles, solar panels and laminated glasses.

Safety knife made of fiberglass designed for PVB deburring on a tripod. The procedure to cut is to pull the knife to the body with the long part of the handle under the windscreen.

Its beveled angle makes the cut easier, increasing comfort of work and at the same time reducing the number of muscular contractions of its user.

GOURBET

Easy to change blade. Supplied with a toothed blade 672.5.2.

Article No	801672
Size	231 x 54 x 15 mm
Weight	85 g
Material	PA 6.6 - Téflon Glass fiber reinforced plastic
Blade	67252
Blade change	Yes
Stainless steel	No
Detectable	No
Color	Black/yellow
Food safe	No
Order number	801672
Cutting depth	Adjustning possible
Packaging unit	1 in single unit box (10 in multipack)
GS-Certificate	Registered model, TÜV certified n ° S 97 91 01203.
