

Slice Auto-Retractable Box Cutter

Safety Knife with ceramic blade and ergonomic handle

ILLBY PLAST
plast - muovi - plastics

Show online

The Slice Auto-Retractable Box Cutter, with replaceable patented Slice ceramic safety blade, reduces injuries and lowers costs.

Also available with 3-Position Manual Box Cutter (ORANGE 10400)

Ergo J-Hook handle protects hands during use and limits exposed blade, creating a safer, more comfortable cutting experience. Third-party ergonomic testing confirms the J-Hook design requires less force than a standard steel utility knife. Ceramic blade automatically retracts into housing when slider button is released for added safety. Includes one patented Slice ceramic safety blade with a rounded tip and can be used with pointed-tip ceramic safety blades. Slice ceramic blades last up to 10x longer than metal blades. Our proprietary manufacturing and sharpening process keeps our blades finger friendly and safer to the touch while maintaining their effectiveness on cutting materials.

Used by more than half the Fortune-1000 safety professionals in 35+ countries. Measures 178 x 89 x 19 mm - 96 g (7 x 3.5 x 0.75 in - 3.4oz).

- auto-retractable blade with slider button
- includes one double-sided Slice ceramic blade
- stays sharp up to 10X longer than steel
- easy no-tool blade change
- less blade exposure means fewer injuries
- reduces injuries, lowers costs
- use with rounded-tip replacement blade 10404
- use with pointed-tip replacement blade 10408
- more ergonomic than standard metal utility knives
