[Show online](#)

Safety Knife developed for industrial needs, safe and easy and ergonomic to use. The Safety knife Charton is specially developed for the industry of logistics, packings, cardboards, papers and food.

[BROCHURE CHARTON and DEVEZE \(PDF\)](#)

CHARTON

The spring-loaded blade retracts automatically when the handle is released.

3 depths of cutting (15, 11 or 5 mm), 3 blades options to tailor to the cutting need. Handle can be locked in the closed position to prevent injuries. Easy to use, light and can be used with both the right and left hand.

Can be combined with a Yoyo to keep it always handy.

Easy to change blades, no need of tools.
