A CLASSIC FOR RIGHT HANDED USERS. WITH TRAPEZOID BLADE AND A CUTTING DEPTH OF 5 MM.

07105

The SECUNORM PROFI is the "great grandfather" of all our TÜV-tested safety knives. Once upon a time it was a pioneer. Today it is a classic. The SECUNORM PROFI with a smaller cutting depth is available for both left and right handers. But why the smaller cutting depth? With less blade, you can better protect your goods. Moreover, the SECUNORM PROFI features automatic blade retraction and has therewith protected generations of users.

ALL HIGHLIGHTS AT A GLANCE.

TO PROTECT YOUR GOODS

You don't have to come too close to your goods with the shortened blade of the SECUNORM PROFI. You can concentrate fully on your work, without having to constantly look out for the cutting depth.

ERGONOMIC HANDLE

Why has the SECUNORM PROFI been so popular over the years? Because it fits pleasantly in your hands. Even in the left hand. You can complete even the most demanding cutting jobs without getting tired.

HARD TO TAKE UP

The plastic insert of the SECUNORM PROFI is inside an aluminium handle.

The stable design makes it ideal for high cutting frequencies and a long life.

2-CUTTING EDGE BLADE

Before you have to change the quality blade, you can turn it over once. This doubles the usage time of the blade - and reduces your energy consumption. Because your product will cut again like new.

WITHOUT TOOLS

You can kiss goodbye to complex blade changes. In the truest sense of the word. You only have to push the plastic insert out of the handle and exchange the old blade for a new one.

Article No	07105
Size	142 x 16 x 31 mm
Weight	82.5 g
Material	Aluminium
Blade	5232
Blade change	Yes
Stainless steel	No
Detectable	No
Color	Black, blue
Food safe	No
Order number	07105.02
