SECUMAX POLYCUT MDP 85007

Made of plastic that can be traced by a metal detector. Food safe.

ILLBY PLAST
plast - muovi - plastics

Made of plastic that can be traced by a metal detector. Food safe.

Pokes its nose into everything. Metal detectable.

The SECUMAX POLYCUT MDP is also one of our small, neat disposable cutters. Still, it does have a unique place in our product range. That's because its nose is extra long and pointed. Try opening a letter with it. Or cutting film in narrow slots. You will see: it will be extremely easy for you. Your company will be especially pleased that it is also made of plastic that can be traced by a metal detector and can therefore be found again.

SECUMAX POLYCUT MDP 85007

All highlights at a glance.

Can be metal detected

A cutting tool, or parts of it, can get lost while working. But only for a short while. Thanks to its ability to be detected by a metal detector you can find it again, before it leaves the company with your goods.

It's all protected

The quality blade is safely embedded between the nose and the handle. So it only cuts what you really want to cut. And there is no risk to your goods while doing so.

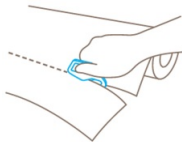

No blade change

The SECUMAX POLYCUT MDP is a disposable cutter. Since you do not have to change the blade, neither you nor your staff can come into contact with it. An additional benefit as far as safety is concerned.

Long, pointed nose

Why the extra long and pointed nose in the SECUMAX POLYCUT MDP? Because you can place it particularly well in the spaces in between. The cutting material is also led to the blade in a much more reliable way.

Usage

Article No	85007
Size	75.5 x 3 x 45 mm
Weight	9.8 g
Material	Metal detectable plastic
Blade change	No
Stainless steel	Yes
Detectable	Yes
Color	Dark blue
Food safe	Yes
Order number	85007.08
Cutting depth	3 mm
Packaging unit	loose (50 pcs in multipack)
GS-Certificate	PK 60119297 0001
