The safety knife. With rounded-tip trapezoid blade.

Over 40 years ago the SECUNORM PROFI set standards in safety, robustness and ergonomics. Its successor goes several steps further. For example, the new aluminium handle significantly improves handling and makes cutting easier, the new slider can be operated from both sides and the blade change has been made so much simpler. Together these improvements combine with the proven automatic blade retraction to increase protection from cutting injuries.

Martor Secunorm 500

All highlights at a glance.

Ergonomic handle

The good "Ergonomics" can be felt all over the SECUNORM 500, for example in the newly shaped handle which fits comfortably into the hand. Or in details such as the nicely rounded knife end or the non-slip soft-grip on the slider.

Abrasion resistant

The robust aluminium handle is designed for the most demanding and frequent cutting tasks. Like its popular predecessor, it is a tough all-rounder capable of taking on any cutting challenge.

Double-sided slider

With the predecessor, the SECUNORM PROFI, there were both left and right handed models. With the modern successor, anyone can cut effectively – with the ability to change hands when the task requires it.

Tool-less blade change

Blade changing without tools. The SECUNORM 500 comes with an intuitively operated blade change button. Press once to remove the blade carrier with its securely held blade.

Blade changing made easy

The blade cover remains in the required position when opened. The blade is then easy to access and is removed using the bladeless edge, avoiding risk of injury.

Automatic blade retraction – a high degree of safety

The automatic blade retraction of the SECUNORM 500 guarantees a high degree of safety from cut injuries. As soon as you have started to cut, take your thumb off the slider. Then the blade will retract into the handle immediately after leaving the material being cut.

Article No	50000100
Size	143 x 16 x 36 mm
Weight	72.5 g
Material	Aluminium
Blade	TRAPEZOID BLADE NO. 65232
Blade change	Yes
Stainless steel	Yes see webstore
Detectable	No
Color	Silver/blue
Food safe	No
Order number	50000110.02
Cutting depth	17 mm
Packaging unit	1 in single unit box / 10 pieces in multipack
GS-Certificate	603574-6653-55094-2018/2
