Safety Cutter developed for food industry.

Eyrac is an ergonomic, small, neat disposable cutters. Still, it does have a unique place in our product range. That's because its nose is extra long and pointed. Try opening a letter with it. Or cutting film in narrow slots. You will see: it will be extremely easy for you. Your company will be especially pleased that it is also made of plastic that can be traced by a metal detector and can therefore be found again.
