Optimized for cable stripping

**ILLBYPLAST**  
plast - muovi - plastics

The thin blade, the sharpening of the blade edge and the design of the handle has been optimized for cable stripping. It features a unique function for attaching the holster around a button on your work clothes so that it does not come loose whilst still being easy to remove. The blade is made from Japanese knife steel, 1.5 mm carbon steel that has been hardened to 58–60 HRC.

- The thin blade has been sharpened to be particularly effective when stripping cables.
- Both the handle and holster are made from super-durable PP plastic.
- The holster can be attached to both a belt and a button on your work clothes. If your belt is thick, cut away the small pin on the cover.
- Electrical Fitters knife EFK fits in the same holster as ELK.

Article No	380140
Size	160mm
Weight	50g
Material	PP
Blade	35mm
Stainless steel	No
Color	Brown
Order number	380140
Cutting depth	35mm
Packaging unit	1/10pcs
