A versatile tool – with great qualities. With rounded-tip trapezoid blade.

The SECUNORM 525 is a straightforward safety knife in every way. The ergonomic aluminium handle sits firmly and comfortably in the hand. Its robust design and large cutting depth of up to 18 mm means the SECUNORM 525 easily manages a variety of cutting materials, for example 3-ply cardboard. An unobstructed view of the blade also allows you to cut particularly precisely. In every task, the proven automatic blade retraction protects you from cutting injuries.

Safety technology

Automatic blade retraction – a high degree of safety

The automatic blade retraction of the SECUNORM 525 guarantees a high degree of safety from cut injuries. As soon as you have started to cut, take your thumb off the slider. Then the blade will retract into the handle immediately after leaving the material being cut.

All highlights at a glance.

Robust handle

The aluminium handle is already familiar from the SECUNORM PROF125. The handle and a newly developed plastic insert form a perfect team to ensure that your SECUNORM 525 is equipped to meet even the toughest tasks.

Optimised slider

A firm hold and grip are typical MARTOR characteristics. The SECUNORM 525 is no different. Its slider has a grooved structure and is especially large giving the ideal conditions for comfortable, "hands-on" work – even when wearing gloves.

Safe blade changing

The blade change button gives easy access to the blade, which is also held in place by a magnet. A further practical feature is that the blade cover can be lifted and locked in an open position.

Large cutting depth

The large cutting depth is ideal for thicker cardboard, material off a roll, rubber and much more. But the SECUNORM 525 is not only very versatile, it can also be relied on for high frequency cutting tasks.

Secure hold

For secure fastening, the SECUNORM 525 is equipped with a practical lanyard hole, another reason why it could become a constant companion. You then reduce risks two-fold: the risk of loss and the risk of cutting injuries.

Article No	52500110.02
Size	143 x 17 x 31 mm
Weight	81 g
Material	Aluminium and plastics
Blade	TRAPEZOID BLADE NO. 60099
Blade change	60099
Stainless steel	Yes, see blade options
Detectable	No
Color	Metal / blue
Food safe	Yes see Profi25 MDP
Order number	52500110.02
Cutting depth	18 mm
Packaging unit	1 in single unit box (10 knives in multipack)
GS-Certificate	179480-7120-55094-2020
EAN	4002632801785
