

# New! Secunorm 185 with ceramic blade

[Show online](#)

Lots of knife requiring little space. With ceramic blade.

MAIN GROUP

Lots of knife requiring little space. With ceramic blade.

Efficiency is important when opening cartons and pallets. Just what the nimble and robust SECUNORM 185 has been designed for. The compact safety knife impresses with features rarely found in this product group, such as a stainless steel handle, a large slider and easy blade change, changing. Other benefits are the sharp, long-lasting ceramic blade and automatic blade retraction.

All highlights at a glance.

Martor Secunorm 185 with ceramic blade

Robust and practical

The SECUNORM 185's handle is made of stainless steel, designed for frequent cutting and long service. The knife has an ergonomic practical format and lightweight design to make cutting easier.

Optimal slider

The double-sided slider is suitable for both right and left handers. It has a large surface for perfect operation even when wearing gloves. Grooves on the slider improve slip resistance.

Safe blade change

Simply hold down the blade change button and pull the slider out from the front to access the blade. The plastic insert and handle remain together so that nothing will be lost.

Practical eyelet

The SECUNORM 185 is equipped with a eyelet for attaching a strap, securing the knife to be on hand as soon as the next package needs opening.

4-cutting edge blade

The blade has four cutting edges that can be used one after the other. This makes economic and ecological sense and, with a fresh cutting edge, you can always cut like new.

Article No	SECUNORM 185 NO. 185004
Size	102 x 26 x 7.2 mm
Weight	32g
Material	Stainless steel
Blade	CERAMIC BLADE NO. 92C
Blade change	Yes
Stainless steel	Yes
Detectable	No
