

NEW! SLICE Auto-Retractable Squeeze-Trigger Utility Knife 10563

Show online

Simply squeeze the handle, and you're ready to work.

MAIN GROUP

Are you tired of working with a utility knife that doesn't protect you from accidental blade exposure? Do you dream of a tool that can cut various materials without going dull? If you answered "yes" to the above questions, then the Slice® Auto-Retractable Squeeze-Trigger Utility Knife is the perfect tool!

SLICE 10563

To expose the blade, simply squeeze the handle, and you're ready to work. This handle style works well with gloves, and the locking feature prevents blade exposure when the tool isn't in use. Changing the blade becomes a walk in the park, as no extra tools are required.

From cutting cardboard, tape, and banding to slicing plastic wraps and vinyl, Slice makes people and places safer. Learn more below.

- Locking feature prevents accidental exposure
- Durable nylon handle
- 100% zirconium oxide blade that never rusts
- Blade lasts on average 11.2x longer than metal blades
- Easy-to-use ambidextrous design

Great for:

- Opening cardboard boxes
- Cutting box flaps
- Slicing tape, shrink wrap, and plastic ties
- Breaking down boxes

Article No	10563
Size	168 x 60 x 18 mm
Weight	72 g
Material	zirconium oxide
Blade	10526
Blade change	Yes, see options
Stainless steel	No
Detectable	No
Color	black / green
Food safe	No
Order number	10563
Cutting depth	25 mm
Packaging unit	1 / 6 pcs
