Doing the dirty work. With rounded special blade.

The SECUNORM 610 XDR is the first universal bag opener that cuts efficiently AND safely. Use it to open bags of any kind and thickness, and any content. XDR means eXtra Dirt Resistant, i.e., even dusty, liquid or sticky contents won't stop the safety knife. The blade automatically retracts after cutting on releasing the lever. Users are then also resistant – resistant to cutting injuries.

All highlights at a glance.

Dirt protection

The SECUNORM 610 XDR's open design has several benefits. Dust and other particles won't stick and moveable parts stay moveable. The lever and blade retraction features then continue to function even under the most difficult conditions.

Easy to clean

Extra tough dirt is also no problem! Open the lever downwards to expose the components. Everything can now be cleaned as required, e.g., with compressed air, water or acetone. But remove the blade first!

Long, stainless special blade

The new, extremely sharp LARGE SPECIAL PURPOSE BLADE NO. 160060 has a 32 mm cutting depth. Ideal for quick and safe cutting of everything

#### Practical 3-in-1 lever

The bag opener is one of MARTOR's highly ergonomic squeeze-grip knives. The lever is smooth and finger-light to operate. It can be securely locked in place or folded out of the handle for blade changing.

#### Robust and detectable

Advanced ergonomics are not the only special features of the SECUNORM 610 XDR. The aluminium, unpainted handle and plastic components are also very robust for professional use. All parts are stainless and metal detectable.
