

# Turvasakset MARTOR SECUMAX 565

Näytä verkossa

Our all-purpose tool for professional cutting. Ideal for larger hands – or in case you wear gloves during work.

MAIN GROUP

## All highlights at a glance.

## Sharp, but not dangerous

Take a good look at the cuts. Noticed anything? None of them have been cut at an angle, as all of the cuts are at right-angles. Therefore you cannot cut yourself, only the large range of potential materials.

## Non-rusting stainless steel

You will be able to use your scissors for a very long time as the metal parts are made from non-rusting stainless steel. The handles have been coated in a plastic reinforced with fibreglass. Another guarantee for a long service life.

## Comfortable working

The experts call them “eyes” and these are the two big openings in which you insert your fingers to securely hold the scissors. The “soft-grip” on the insides also helps to ensure comfortable and non-slip working.

### Unscrewing grips

Even though the SECUMAX 565 is an allrounder, it is not restricted just to cutting. A cap that you cannot unscrew? Just use the grips embedded in the handles and the problem will be solved in no time at all!

### Integrated wire cutter

If you open the scissors a little wider you will be able to use the wire-cutter notch integrated above the screw. Simply slide the wire or cable in place and then cut it to the required length.
