Doing the dirty work. With rounded special blade.

The SECUNORM 610 XDR is the first universal bag opener that cuts efficiently AND safely. Use it to open bags of any kind and thickness, and any content. XDR means eXtra Dirt Resistant, i.e., even dusty, liquid or sticky contents won't stop the safety knife. The blade automatically retracts after cutting on releasing the lever. Users are then also resistant – resistant to cutting injuries.

All highlights at a glance.

Dirt protection

The SECUNORM 610 XDR's open design has several benefits. Dust and other particles won't stick and moveable parts stay moveable. The lever and blade retraction features then continue to function even under the most difficult conditions.
