Automatic blade retraction – a high degree of safety

The automatic blade retraction of the SECUNORM 25 guarantees a high degree of safety from cut injuries. As soon as you have started to cut, take your thumb off the slider. Then the blade will retract into the handle immediately after leaving the material being cut.

MARTOR SECUNORM PROFI25

Professional in every respect.

Our SECUNORM PROFI25 is aptly named. "PROFI" because this cutter really does behave professionally. Whatever the situation, whatever the cutting material. And the "25" is in reference to its impressive blade extension of 25 mm, with which even 3-ply cardboard can be conquered. And just like all other members of the PROFI family, SECUNORM PROFI25 features automatic blade retraction.

All highlights at a glance.

Robust handle

The plastic insert of the SECUNORM PROFI25 slots into a fully aluminium body. With its robust design, this cutter can cope with high cutting frequencies over an extended period of time.

Double-sided blade

Before you need to change the quality blade, you have the chance to turn it over once. Usage time of the blade is doubled and fatigue is held at bay: with a simple flip of the blade, your SECUPRO PROFI25 will cut like new again.

Tool-less blade change

Blade change is easy to understand. Easier still to perform. Simply push the plastic insert out of the handle and with care, either rotate or replace the blade.

For right and left handers

The SECUNORM PROFI25 is the right size for every hand. Yours too. If you are a left hander, simply turn the blade 180° and your cutting tool is ready to use.

Article number	NO. 120001
Size	143 x 17 x 31 mm
Weight	82 g
Material	Aluminium
Blade	TRAPEZOID BLADE NO. 99
Blade change	Yes
Stainless steel	Upon request
Detectable	No
Color	Black/blue
Food safe	No
Order number	120001.02
Cutting depth	25 mm
Replacement blade	TRAPEZOID BLADE NO. 99
Packaging unit	1 in single unit box / 10 pieces in multipack
GS-Certificate	S 60112078
