ALL HIGHLIGHTS AT A GLANCE.

TO PROTECT YOUR GOODS

You don't have to come too close to your goods with the shortened blade of the SECUNORM PROFI. You can concentrate fully on your work, without having to constantly look out for the cutting depth.

ERGONOMIC HANDLE

Why has the SECUNORM PROFI been so popular over the years? Because it fits pleasantly in your hands. Even in the left hand. You can complete even the most demanding cutting jobs without getting tired.

HARD TO TAKE UP

The plastic insert of the SECUNORM PROFI is inside an aluminium handle. The stable design makes it ideal for high cutting frequencies and a long life.

2-CUTTING EDGE BLADE

Before you have to change the quality blade, you can turn it over once. This doubles the usage time of the blade - and reduces your energy consumption. Because your product will cut again like new.

WITHOUT TOOLS

You can kiss goodbye to complex blade changes. In the truest sense of the word. You only have to push the plastic insert out of the handle and exchange the old blade for a new one.
