ALL HIGHLIGHTS AT A GLANCE.

ERGONOMIC HANDLE

Why has the SECUNORM PROFI been so popular for as long as we know? Because, for one, it sits comfortably and valuably in your hand. You can thus complete even demanding cutting work without any fatigue.

HARD TO TAKE UP

The plastic insert of the SECUNORM PROFI is inside an aluminium handle. The stable design makes it ideal for high cutting frequencies and a long life.

2-CUTTING EDGE BLADE

Before you have to change the quality blade, you can turn it over once. This doubles the usage time of the blade - and reduces your energy consumption. Because your product will cut again like new.

WITHOUT TOOLS

You can kiss goodbye to complex blade changes. In the truest sense of the word. You only have to push the plastic insert out of the handle and exchange the old blade for a new one.

SAFE FIT

A SECUNORM PROFI will not let you down. But it can be hung down! Just pull the strap through the eyelet and let the cutting tool hang from your wrist or belt loop.
